DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 14, 17, 30, 33 and 34 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 5, and 6 of U.S. Patent No. 6,855,184 B2 in view of Shekhter et al. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one ordinary skill in the art to sinter the niobium powder claimed in the patent which comprises Nb and Ta of less than 700 ppm by mass and has an average particle size of primary powder of from 0.1 to 5 μm and an average particle size of secondary powder obtained by granulating the primary powder of from 50 to 300 μm to form a sintered body as evident by the teaching of Shekhter et al., which teach sintering niobium powder comprising either primary or secondary particles by heating in a reduced pressure at 1200 C for 20 minutes, col. 7, lines 13-14.

3. Claims 23-29, 32, and 35 are allowable.

4. Claims 15-16, 18-19, and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
